

Burford®

Multi-Product Auto-Fill System

MODEL MPAS-100

The Burford® Multi-Product Auto-Fill (MPAS) is uniquely designed to transfer a wide variety of toppings from a bulk storage tank to the hopper located on the Burford® Seeder. The MPAS-100 series utilizes vacuum to gently move topping automatically up to 50 feet. The MPAS-100 also features an automatic filter and tube cleaning system to reduce product changeover times and minimize maintenance requirements.

- Ideal for applications that contain higher amounts of dust
- Gentle on delicate toppings
- Automatic filter cleaning
- Low maintenance
- Flexible anti-static hose for topping transfer, 50ft. max.

MPAS-100 shown with Burford® seeder and conveyor

Includes MPHS-300 - 300 lbs capacity,
shown with optional tank vibrator kit
